

Kevin Zeckser

SUMMARY

iOS fanatic and off-hours craftsman with over two years experience developing, deploying, & supporting enterprise applications. Fluent in English and Portuguese.

EXPERIENCE

Web Development Program, Startup Institute

Boston, MA — 2016 - Present

Selected from a highly-competitive applicant pool for an eight-week full-time, immersive education program. Startup Institute gives people the skills, mindset, and network to be high-impact employees at innovative companies.

- Intensive Rails development program
- Idea-hack with partner companies to drive innovation
- Source control management and cloud-based deployment
- Partner project at a local startup with a final deliverable

Ruby Development Program, Startup Institute

Boston, MA — 2016, January - March

Part-time program with in-depth coverage of the Ruby programming language. Classes are shaped by industry professionals and taught by experienced full-stack developers.

- Developed full-scale Xbox game replica with Ruby using external C++ Libraries
- Set up a development environment: brew, Xcode, RVM, git
- MVC: intro to model-view-controller architecture

Software Support Engineer, Intersystems Corp.

Cambridge, MA — 2013 - 2016 (March)

Identified and ideated custom solutions to surmount technical obstacles faced by developers using Intersystems technology. Operated autonomously with workflow prioritization at personal discretion, exceeding internal service standards and role defined expectations. Served as a liaison between product management & external software developers to correctly prioritize crucial features.

Notable Clients: European Space Agency, 3M, Epic Systems

Teaching Assistant, Boston College

Boston, MA — 2011-2013

Mentored and mediated teams of upper class students to define requirements, use cases, & develop a final user application solution for each teams client. Guided students alongside Deloitte Consulting LLP, BTA's for all teams throughout the semester length user application project.
